Austria	0820 987601	South Korea	0160 -0-1073
Austria	0820 444599	United Kingdom	0844 410 0400 - 5p/min
Belgium	070 27 00 01	United Kingdom	8545508 - 15p/min
Germany	01805 016070 - 0.15€/min	United States	(605) 475-4120

Reminder of PSIA Operating Policy

Antitrust

The discussion should not address market allocation, pricing, or similar anticompetitive matters.

Intellectual Property

If a participant knows his or her company has patent claims that cover a portion of the spec or standard under discussion, he or she is obligated to disclose those claims, and the company must either agree to negotiate RAND (Reasonable and Non-Discriminatory) license terms or the WG will have to try to work around the claims (and the company may be asked not to participate further if this happens repeatedly).

Special Note: Next meeting is July 13, 2016. Subsequent meetings will follow on a two week cycle unless otherwise noted.

Agenda:

1. Minutes of last meeting
2. Whitepapers
3. ASIS 2016 demonstration
4. General business
5. Next meeting/time

Attendance:

- Dave Bunzel, PSIA
- Jeff Longo, Kastle Systems
- Azizur (Z) Rahman, Alert Enterprise
- Adepu, Alert Enterprise
- Pradeep, Alert Enterprise

Discussion:

- Meeting opened at 5:00 PM EST
- Outstanding actions from the previous minutes
 - Conformant products – Discussion of the conformance tools, process, and output. Jeff provided perspective on what tools were in place and that they were primarily to support PACS vendors.

- Further discussion about how the “Conduit Companies” could achieve conformance. Considering that they were likely to have implementation in conjunction with a particular PACS vendor (for example, Alert Enterprise with Lenel, RightCrowd with Tyco; or Quantum Secure with Kastle) they may have different compliance certifications.
- Jeff reviewed the implementation guide and provided tips on how Alert Enterprise could get started on their PLAI agent/adaptor development and considerations for the process.

- Whitepaper summaries
 - Mohammad forwarded the first of four white papers-PLAI Multi-PACS for review.
 - Diane was not on call for an update.

- ASIS demo planning
 - The format and content for the demonstration at ASIS was discussed in terms of how to deliver the East-bound interface demonstration (that was not completed for ISC West).
 - Laura Kevitt gave Dave an update of their technical work. They are implementing HID Easy Lobby, which features a RESTful interface. She thought implementing PLAI would be easy after this and available in time for ASIS.

- Other Business
 - No critical items

New/Open Action Items:

- (opened 06/08/2016) Mohammad to provide a copy of the document the details the East-bound interface
- (opened 04/13/2016) Kastle and Allegian to provide content summarizing what was presented at ISC West
- (opened 02/03/2016) Darren to work with Jeff on a short document outlining what is required to take an existing PLAI adaptor and extend it to support Location/Zone Awareness

Closed Action Items

- (closed 06/08/2016) Darren to provide a draft Conformance matrix
- (closed 06/08/2016) Darren to provide content summarizing what was presented at ISC West
- (closed 06/08//2015) CMEM specification to be finalized (formatting completed)

Next Meeting: Wednesday 13th July, 2016 5pm EST
