Security Professionals Pack the Room at PSIA Interoperability Reception at ASIS to View Interoperable IP Solutions

PSIA brought together more than 150 industry professionals to its Interoperability Reception at the recent ASIS International 56th Annual Seminar & Exhibits. The networking event, which was held Wednesday, Oct. 13, 2010, at 4 p.m in Room A122 at the Dallas Convention Center, provided an opportunity for conference attendees and exhibitors to view PSIA specifications in-action and witness the benefits of the PSIA systems-based approach to interoperability. Arecont Vision, Milestone and Synectics served as sponsors for the successful event. For details, [click here](#)

PSIA Boosts IP Standard Development Efforts to Build System-Wide Interoperability

The Physical Security Interoperability Alliance is ramping up development of its entire range of IP-based specifications to achieve system-wide interoperability of IP security devices.
